Hudong-Zhonghua Shipbuilding (Group) Co., Ltd. is a large shipbuilding enterprise under the leadership of China Shipbuilding Group Corporation (CSSC). As a comprehensive enterprise group in China building not only merchant and military ships but also heavy duty diesel engines as well as large steel structures, the Group is founded through merger between Hudong Shipbuilding Group and Zhonghua shipyard. The head office of the group is located at Pudong New Area, with major production areas at the east part of Shanghai, along both sides of Huangpu River, covering an area of 1.35 million m² and 2000 meters of wharf line. The Group possesses the total assets of 7 billion Yuan and employs 14,000 staff and workers.

In addition to the two large shipyards, Hudong and Zhonghua, the Group also comprises Hudong Heavy Machinery Co., Ltd., a listed company, Edward Shipbuilding Co., Ltd., a Sino-German joint venture, Dong Ding Steel Structure Co., Ltd., and as many as 100 other marine equipment manufactures and sub-companies. The Group is equipped with a VLCC class dry dock, a 120,000DWT class floating dock, and five shipbuilding berths for ships up to 20,000DWT, 70,000DWT and 120,000DWT respectively. The shipyard of the Group, with a history of over 70 years and profound expertise in shipbuilding, have so far delivered to both domestic and overseas customers over 3,000 ships of wide varieties ranging from large and medium-sized container ships, LPG carriers, chemical carriers, Ro/Ro ships, floating production storage units, products carries, crude oil tankers, bulk-cargo carriers, passenger ships to various kinds of ships for naval use.
The ships built by the Group which not only satisfy domestic demands but also are exported to over 30 countries or regions all over the world, are rewarded high appraisal from the customers. The marine diesel engines manufactured by Hudong Heavy Machinery Co., Ltd. of the Group accounts for over 60% of domestic market share. The typical steel structure projects such as Nanpu Bridge, Capital Mansion, DaQing TV Tower, Shanghai Stock Exchange Building and 300,000m3 dry-type gas tanks etc. have produced profound influence nationwide.

There is an advanced technology center and a post-doctoral work station in the Group where over 2,000 senior and medium class technical staff are conducting design and research work by wide application of advanced means such as Swedish TRIBON marine design software, CAD and CAM technologies. The Group has established an integral quality insurance system and has successively attained ISO9001 certification respectively issued by CCS, DNV, ABS and LR classification societies.

A great number of products of the Group have been rewarded nationwide golden or silver medals for its outstanding quality.

Hudong-Zhonghua Shipbuilding (Group) Co., Ltd. is ready to collaborate with all the customers throughout the world by offering state of the art technology, quality products and satisfactory after-sales service.

In our group, the construction of ships is performed by 3 shipbuilding departments and the Edward Shipbuilding Co., Ltd, which are located in three areas namely, Pudong, Punan, and Fuxing Island respectively. Ship repair business is conducted in Da Dong Shipping Engineering Co., Ltd. at Chongming Island, and diesel engine manufacture at the west of the Pudong shipbuilding area. Fabrication of steel structures is made in Fuxing Island and Sunqiao area. Group is equipped with a dry dock, several building berths and a long wharf line as well as one 600-ton and eight 100 ton cranes.
